

**River keepers staff
plan visit to Moldova**

Staff from the River Keepers in Fargo-Moorhead, the Rodger Ehnstrom Nature Center in Wahpeton, N.D., and the International Water Institute in Fargo will visit the Eastern European country of Moldova next week as part of a Sister Rivers project.

Sister Rivers is a multi-partner collaborative project focusing on two international rivers, the Dniester River in Moldova and the Red River. The goal is to recognize the importance of water resources in the world.

Representatives will learn about the Dniester River by participating in the youth Dniester River Summer School and in the Dniester River Festival. They will also teach Moldovan youths about the Red River. Fargo Forum 7/4/10
