About The Event

Reforest the Red is a program where volunteers plant trees and shrubs along the Red River to create a buffer, maintain river bank stability, encourage growth of native plants, improve water quality and provide habitat for wildlife.

Tree planting and proper care show a concern for future generations. Properly planted and cared for trees will grow and, some day, provide wildlife habitat, erosion control, shelter from the wind and sun, beauty, and inspiration for ourselves and our children.

We are already almost full for the volunteers slots! However, we still need some financial assistance. Would you consider helping to sponsor Reforest the Red Fargo by making a contribution? We are specifically asking for donations to assist with buying stakes and conservation stock. Sponsor benefits include:

- Company acknowledgement on site and on social media.
- Community goodwill.
- Environmental stewardship.
- River Keepers is a 501(c)(3) organization. All contributions are tax deductible to the extent allowed by law.

Your contribution will help make our events successful by diversifying our trees and providing stability for our large trees to grow a strong, supportive root system to sustain the Red River.

Sponsor Packages

\$250

Root Revivors

- Small logo on event signage

\$500

Leafy Legends

- Medium logo on event signage

\$1000

Branch Managers

- Large logo on event signage
